

601-1-101N

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

APPLICANT : Nackman and Foty
SERIAL NO. : 09/975,723 EXAMINER : Unassigned
FILED : October 11, 2001 ART UNIT : 1653
FOR : IMPROVEMENT OF ENDOTHELIAL CELL-CELL COHESION

IN THE UNITED STATES PATENT AND TRADEMARK OFFICECERTIFICATE OF MAILING UNDER 37 CFR §1.8

I hereby certify that this correspondence (and any paper referred to as being transmitted herewith) is being deposited with the United States Postal Service with sufficient postage as first class mail in an envelope addressed to the U.S. Patents & Trademark Office, ASSISTANT COMMISSIONER FOR PATENTS, WASHINGTON, DC 20231 on October 16, 2002.

INFORMATION DISCLOSURE STATEMENT

Sir:

In accordance with Applicant's and Applicant's representatives' Duty of Disclosure under 37 CFR § 1.56, and pursuant to 37 CFR §1.97 and MPEP 717.05(b), Applicant(s) submit herewith documentary information for consideration by the Examiner. Information herein cited is only set forth in fulfillment of Applicant's duty of candor in disclosing all information brought to his attention, and is not an admission that it can be used adversely. The publications forwarded herewith are listed on the enclosed Form PTO-1449. Applicant(s) request that the Examiner, upon reviewing the enclosed materials, initial the enclosed form and return a copy thereof in accordance with the instructions on the form.

Enclosed please find copies of References **AA through BS** listed on the attached Form PTO-1449. References AA, BA, BC and BF were cited in the International Search Report issued for the corresponding PCT Application. A copy of the Search Report is enclosed. No fee is believed due for the filing of this statement as it is being filed before the mailing of a first Office Action on the merits. However, should any fee be due, authorization is hereby given to charge the amount of such fee to Deposit Account No. 11-1153.

Respectfully submitted,

C R M
